To our friends and customers:

July 3rd, 1922.

THE publication of this our latest Catalogue and price list did not take place earlier because of war conditions and unsettled prices for labour and raw materials. We recognize that the publication of this Catalogue and Price List is long overdue, and we thank you for bearing with us until such a time as we could issue our Catalogue with the assurance that the List Prices in same were fairly permanent and in line with present day costs.

A feature of this book, unlike any of our former Catalogues, is that all the goods shown herein are manufactured by us in our own factories. Hence our guarantee for "SMP Quality" covers everything in this Catalogue, and this guarantee you can pass on with confidence to your customers.

Ten years ago we coined the slogan "*Shipments Made Promptly*" to express in a phrase the guiding impulse of this business.

"SMP Quality" goods, "*Careful Packing*" and "*Shipments Made Promptly*" enable us with confidence to again solicit your valued commands.

Yours respectfully,

THE SHEET METAL PRODUCTS CO. OF CANADA LIMITED

Very seldom do we hear complaints about orders not being filled completely or goods not being properly packed.

With our method of checking orders, our large stocks in Montreal, Toronto, Winnipeg, Vancouver, Calgary and Edmonton, and the experienced men who do the packing, we should receive no complaints.

Each case from **SMP** contains a pink sheet like this.

SPECIAL NOTICE

These goods have been

Checked Twice

—UNPACK WITH CARE—

Claims for shortage frequently arise from goods being **left in packages**, or **thrown out with packing material**, or **put in stock** or **sold before properly checked**.

Small goods are sometimes **packed inside of larger articles** in order to save space.

Should you find it necessary to make a claim for shortage, **or owing to the goods not being properly packed, please return this slip to us.**

CRYSTAL WARE

Porcelain white inside and out, with light blue edge on rim. All bails have black enameled hardwood grips. **CRYSTAL WARE** is triple-coated. The articles in **CRYSTAL WARE** that go on the stove harmonize with the white enameled trim so popular at the present time on coal, gas and electric ranges. It has the finish of fine crockery without the breakage.

Lumino
REGD
Pure Aluminum

“LUMINO WARE” is made from hard, selected and pure Aluminum Sheets. In the quality and weight of aluminum sheets used “LUMINO WARE” is not excelled by any other make. In addition, “LUMINO WARE” has special features like the LUMINO COLD HANDLE, the massive LUMINO COVER KNOB, and other novelties that make the line unsurpassed.

As secondary manufacturers, we are not concerned with the relative merits of enameled ware, aluminum ware, re-tinned ware, or copper ware. Our entire interest lies in seeing that the articles we make in these different wares are the best of their kind. Years of thought and experience in catering to the kitchen utensil needs of the Canadian housewife have been put into the manufacture of “LUMINO WARE.” The SMP trade mark appears on each article.

JAPANNED WARE

WE try in this line to stock only articles and sizes that are proved sellers. Every article is both air and kiln dried, giving a permanent lustre to the decoration.

Worthy of special mention are Savoy Bread Boxes, Savoy Cake Boxes and Savoy Grocery Cans. These are made on special machinery in large quantities and when finished in either White Enamel or Pearl Gray Japan present an elegant appearance.

PIECED TIN WARE

In this section, we particularly invite your attention to our line of Oval Wash Boilers. No manufacturer, anywhere, has a larger or better line to offer. The quality of all our Pieced Tin Ware lines has been greatly improved since our last catalogue was issued. Close inspection and careful packing is the same here as in our Enameled Wares.

SMP HOT GALVANIZED WARE

A little Talk on Hot Galvanizing;

Zinc, or spelter as it is commercially called, is the coating used to prevent rusting on iron and steel articles. *As long as the spelter coating is complete no rusting results.*

In making Sheet Metal Products such as Wash Tubs, Wash Boilers, Garbage Cans, etc., which have bottom seams and side seams, the steel sheets become greatly stretched and distorted at these seams.

When the Spelter coating is applied *before* the sheets are formed, it also becomes stretched and distorted and rusting starts at these points, soon destroying the article. No amount of aluminum bronze or red paint can repair the defect.

Consider on the other hand an article on which the spelter coating is applied *after* the sheets are formed and *after all* mechanical work is completed—where the article after pickling is completely immersed in pure molten spelter so that all that can hang on stays on.

This is Hot Galvanizing and is the process used by

SMP on all their

Hot Galvanized Ware.

“Mr. Merchant”

SMP HOT GALVANIZED WARE should be a line of big profit for you. You and your clerks can make it so if you remember what we say on this page and pass it on to your trade.

COAL HODS AND STOVE BOARDS

OUR yearly sales in this section of the catalogue are large because of the general excellence of each article and size shown.

We have specialized for years, not on the stove itself, but on the articles that are used around the stove. For this reason the SMP line is the logical one to push.

These boards are the best product of our Macdonald plant and are lithographed on best cold rolled steel sheets. The wood linings are built up of thin kiln dried boards, nailed crosswise, and cannot warp under any service conditions. The decorated sheets completely cover the boards without using nails, leaving no part of the wood lining exposed, and no nails to catch in the carpet.

***“END LOCK” STOVE PIPE**

Diameter, inches.....	6	7
Bundle lots, lengths.....	25	25
Per 100 lengths.....	\$12.73	13.64

This pipe is designed for the trade who require a Stove Pipe to be nest-able and for the customer who wants a Stove Pipe which is easily put together. The Stove Pipes are cut, notched, folded, rolled, beaded and crimped. To set up a pipe simply bend the tongues down on the inside of the pipe with the fingers or a pair of pliers. This makes a secure lock at either end.

“END LOCK” is the easiest pipe on the market to put together, and the strongest when set up.

SMP OILERS AND EMBOSSSED WARE

WE show here only Oilers that we make and are generally sold in the Canadian hardware store. A feature of **SMP OILERS** is the uniform spout. All **SMP** Mowing Machine Oilers and Engineers' Drip Oilers take the same spout screw. The advantage of this as well as the general excellence of this line of Oilers will be appreciated by the trade.

We show in Embossed Ware only those articles whose sale is large enough to justify their existence in this catalogue.

MILK CANS

It is impossible in this general catalogue to do justice to this important line. If you are interested, write our nearest branch for a copy of our "Milk Can" Catalogue.

Special attention is given to Retinning and Soldering on all our Milk Cans, which makes them superior to all other Cans.

"Milk Cans" are a line above all others where the best is the cheapest. Taking into consideration the quality of **SMP** Milk Cans our prices are always competitive.
